

- On page 20 please change line 4

from:

“ • other attachment means could be made available to attach the head section to the decorative section;”

A3
to:

“ • other attachment means could be made available to attach the head section to the decorative section, such as a U-shaped fork attachment which attaches to a protuberance, knob or button in the decorative section;”

In the Claims: (NE)

- In Claim 13, please delete:
“{add a similar claim that depends from claim 8 above}”
- In Claim 17, please add a period (“.”) after “are threaded with identical threads”
- The last two (2) claims are mistakenly numbered 20 and 21, in duplication of the correct claims 20 and 21, when they should be 22 and 23. The next two added claims assumes this change to be made to “new” claims 22 and 23.
- Please add claim 24 as follows:

“24 The body decoration system according to Claim 8 wherein

said primary end of said body piercing section includes an external threading,

AA
and

said primary attachment of said fastening section includes an internal threading,

said primary end of said body piercing section being removably threadedly

related in mating engagement with said primary attachment of said fastening section.”

- Please add claim 25 as follows:

"25 The body decoration system according to Claim 2 wherein

AG said primary attachment of said decorative section includes an internal
threading, and

said primary attachment of said head section includes a threaded pin

said threaded pin being threadedly related in mating engagement to said
internal threading of said head section."

- Please add claim 26 as follows:

"26 The body decoration system according to Claim 2 wherein

AB said primary attachment of said decorative section includes a protuberance,

said primary attachment of said head section includes a fork-shaped
attachment,

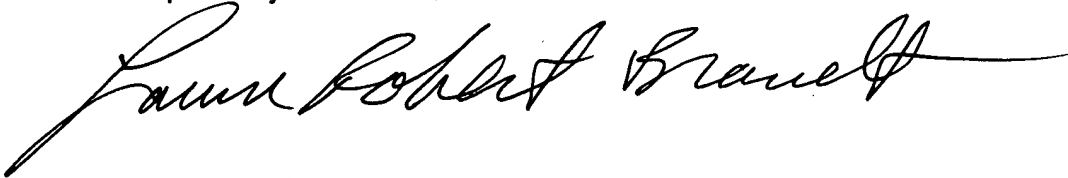

said fork shaped attachment being made of a resilient material,

said protuberance being related in mating engagement to said fork-shaped
attachment of said head section."

- - end of amendment - -

We further specify that a marked up version of the application, after making the included changes, is included as a separate enclosure. As there is no change to the drawings, the originally filed drawings should be used.

Respectfully submitted,

A handwritten signature in black ink, reading "Lawrence Robert Brandt". The signature is fluid and cursive, with a long horizontal stroke extending to the right.
